### BPW Disc Brake

With the introduction of the BPW TSB Disc Brake, there has been a change in the diameter of the brake rotor. This also requires a new Disc Pad set

It is not possible to use other brands or generations of rotors with BPW TSB braked axles

It is not possible to use other Disc Pad sets with BPW TSB braked axles

For TSB3709 - 8 stud use only 03.088.34.16.7 Rotor  
For TSB3709 - 10 stud use only 03.088.34.14.7 Rotor  
For TSB3709 Brake Pads use only 09.000.61.79.0 Set

The above listed rotors will suit Knorr-Bremse braked BPW axles

Rotors for early model axles (Axial and Tangential mounted calipers) are still available.
